Art Unit: 2627

1) The amendment filed 7/09/2007 is acknowledged.

2) The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

3) (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4) Claims 1,120,121,127 and 128 are rejected under 35

U.S.C. 102(b) as being anticipated by BREZOCZKY et al ( European Patent Application, EPA 0-549-236 A2 ).

The rejection of claims 1,120,121,127 and 128 in previously Office action is repeated herein.

5) The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6) This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made

absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7) Claims 2-14, 101, 103, 104, 122-126, 129 and 130 are rejected under 35 U.S.C. 103(a) as being unpatentable over BREZOCZKY et al (EPA 0-549-236 A2).

The rejection of claims 2-14, 101, 103, 104, 122-126, 129 and 130 in previously Office action is repeated herein.

8) Applicant's arguments filed 7/09/2007 have been fully considered but they are not persuasive.

First, Applicant states that the reference of BREZOCZKY et al did not disposed directly on the surface of substrate. Applicant is directed to figure 5, every elements integral together to form a near-field optical head, therefore, element 63 is considered a part of optical waveguide. Claim 1 is found anticipated as shown above.

Second, since every elements integral together to form a near-field optical head ( see figure 5 ) which means that the optical waveguide and the planar substrate form an integral structure. This feature met the language of claim 127.

Art Unit: 2627

Third, the steps of forming, bonding, coating, etc., are old and widely used in the optical recording art for making any optical device ( optical disc, optical head, optical waveguide, etc., ). To use these steps for manufacturing an optical waveguide as claimed is found to be within the level of skill in the art.

For those reasons, the claims are still rejectable as shown above.

9) THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
